

9749 Days to Remember

Year 2019

Archival pigmented prints on Kapa board
yellow post-its
permanent red marker

This is an ongoing piece. Every piece will be finished when each person is liberated from prison or can return safely from exile. When this happens, the picture and the last post-it will be framed.

Each individual framed piece will be for sale, with a starting price determined by the time spent in prison/exile. Each day will be priced as 10 SEK. The money raised by the selling of the artworks will be divided equally and donated to Òmnium Cultural and the Catalan Nacional Assembly.

Òmnium Cultural is a cultural non-governmental organisation, with more than 125,000 members and 57 years of history. Founded at the height of the 40-year Franco dictatorship on 11 July 1961, Òmnium Cultural was launched to combat the censorship and persecution of Catalan culture and to fill the gap left by the political and civil institutions of Catalonia that were forbidden by the dictatorship.

The Catalan National Assembly (ANC) is a grassroots organisation that brings together around 80,000 people from all parts of the Catalan society, including different ideologies, religions and nationalities. They work on a voluntary basis for a common cause: to win Catalan independence in a completely peaceful and democratic way.
